(8) Does the Minister still accept the proposition in paragraph 129 of the Report that “in this Port Maitland study, we are dealing only with the effects of inorganic fluorides, and these only on a quantitative time basis, which may result in a demonstrable effect of chronic fluorosis. Does this not imply an abdication of long-term control. (8) Does the Minister still accept the proposition in paragraph 129 of the Report that “in this Port Maitland study, we are dealing only with the effects of inorganic fluorides, and these only on a quantitative time basis, which may result in a demonstrable effect of chronic fluorosis. Is the Minister aware that samples sent independently for analysis to Thornton Laboratories Inc., 1145, East Cass Street, Tampa, Florida, 33601, have resulted in analyses substantially different from those obtained by his own laboratory. 4. # NOTICE PAPER

## PRIVATE MEMBERS' MOTIONS

3. *Mr. Smith* (Nipissing)—Resolution—That this House supports the addition of prescribed drugs and medication costs to present Family Benefit payments, in the same manner as hospital and medical costs are now included.
4. *Mr. De Monte*—Resolution—That, in the opinion of this House, employees have the right to be actively included in any planning for change arising from automation or industrial rationalization, the effect of which would be to make substantive changes in their working conditions or cause redundancies.
5. *Mr. Sopha*—Resolution—That, in the opinion of this Legislature, it ought to be an offence for any person to eavesdrop on the conversation or actions of other parties by any means whatsoever, except under the strictest controls as prescribed by law.
6. *Mr. Braithwaite*—Resolution—That this House recognize the reality of noise pollution as a factor in the daily lives and welfare of the people of Ontario.
8. *Mr. Shulman*—Resolution—That, in the opinion of this House, this Government should consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administered by a Board constituted to hear applications and make awards for compensation.
13. *Mr. Jessiman*—Resolution—That financial assistance should be provided to needy students in our primary and secondary schools, as well as in university to ensure that no one is forced to drop out of the school system as a result of economic pressure.
17. *Mr. Reid* (Scarborough East)—Resolution—That elementary and secondary school student records be treated as confidential so that private information is not released or used without the written consent of the individual concerned.
18. *Mr. Peacock*—Resolution—That, in the opinion of this House, the Ontario Housing Corporation, in respect to the displacement of tenants from lands acquired directly or at arm's length by the corporation, should be subject to the provisions of The Expropriations Act, 1968-69, (Bill 5), in the same manner as the Crown.
19. *Mr. Lawlor*—Resolution—That consideration be given by this House to the ideas, and their justification or lack of it, set out in Volume I of the Royal Commission Inquiry into Civil Rights.
23. *Mr. Bukator*—Resolution—That the Workmen's Compensation Act should be broadened so as to include injuries and incapacities sustained off the job, and that the increased coverage be financed by the savings accruing

from investigators not having to determine whether an employee was or was not actually working on the job at the time the injury or incapacity was sustained.

25. *Mr. Ferrier*—Resolution—That this House strongly asserts that corporations exploiting mineral resources of this province should process them to the maximum degree possible in Ontario, and that particularly in the case of Texas Gulf Sulphur, smelting facilities should be established in the Porcupine community to provide the vital economic lift needed to compensate for the gradual phasing out of the gold mining industry.
26. *Mr. Nixon*—Proposed amendment to Supply Motion—That this House deplores the inadequacy of government policy in relation to the implementation of regional, municipal, and educational government in Ontario, its lack of local consultation, its failure to control costs, and its removal of local autonomy, and, therefore, that the government does not enjoy the confidence of this House.

Has a chemical-biological warfare-agent factory been established anywhere in Ontario. 4. In the light of the opinion of Professor Henry Miller, Vice-Chancellor of Newcastle University, England, that doctors who work on chemical-biological warfare research are in violation of their ethical code and their Hippocratic Oath; and should surrender their status as physicians and withdraw from the Medical Register; will the Minister give a clear-cut statement on his views in this matter, before this \$400 million dollar U.S. industry moves into Ontario, if, indeed it has not already done so.

Would this phenomenon affect the urinary test readings of Mr. Ted Boorsma during his therapeutic trial as described in paragraphs 280 and 281 of the Hall Report. 4. If this should be so, is it possible to uphold the statement in the final sentence of paragraph 281, that Mr. Ted Boorsma did not have fluorosis. 5. How long did the samples stand before being subjected to laboratory analysis for

fluoride. 2. What was the actual date and time of the laboratory test for fluoride, and the date and time of the specimens being taken from Mr. Casina by Dr. Tidey. 3. ## PRIVATE MEMBERS' MOTIONS

3. *Mr. Smith* (Nipissing)—Resolution—That this House supports the addition of prescribed drugs and medication costs to present Family Benefit payments, in the same manner as hospital and medical costs are now included.
4. *Mr. De Monte*—Resolution—That, in the opinion of this House, employees have the right to be actively included in any planning for change arising from automation or industrial rationalization, the effect of which would be to make substantive changes in their working conditions or cause redundancies.
5. *Mr. Sopha*—Resolution—That, in the opinion of this Legislature, it ought to be an offence for any person to eavesdrop on the conversation or actions of other parties by any means whatsoever, except under the strictest controls as prescribed by law.
6. *Mr. Braithwaite*—Resolution—That this House recognize the reality of noise pollution as a factor in the daily lives and welfare of the people of Ontario.
8. *Mr. Shulman*—Resolution—That, in the opinion of this House, this Government should consider establishing a fund out of which payments may be made to compensate victims of crimes of violence, or their dependants, to be administered by a Board constituted to hear applications and make awards for compensation.
13. *Mr. Jessiman*—Resolution—That financial assistance should be provided to needy students in our primary and secondary schools, as well as in university to ensure that no one is forced to drop out of the school system as a result of economic pressure.

18. *Mr. Peacock*—Resolution—That, in the opinion of this House, the Ontario Housing Corporation, in respect to the displacement of tenants from lands acquired directly or at arm's length by the corporation, should be subject to the provisions of The Expropriations Act, 1968-69, (Bill 5), in the same manner as the Crown.

23. *Mr. Bukator*—Resolution—That the Workmen's Compensation Act should be broadened so as to include injuries and incapacities sustained off the job, and that the increased coverage be financed by the savings accruing

from investigators not having to determine whether an employee was or was not actually working on the job at the time the injury or incapacity was sustained.

25. *Mr. Ferrier*—Resolution—That this House strongly asserts that corporations exploiting mineral resources of this province should process them to the maximum degree possible in Ontario, and that particularly in the case of Texas Gulf Sulphur, smelting facilities should be established in the Porcupine community to provide the vital economic lift needed to compensate for the gradual phasing out of the gold mining industry.
26. *Mr. Nixon*—Proposed amendment to Supply Motion—That this House deplores the inadequacy of government policy in relation to the implementation of regional, municipal, and educational government in Ontario, its lack of local consultation, its failure to control costs, and its removal of local autonomy, and, therefore, that the government does not enjoy the confidence of this House.

Does this not imply an abdication of long-term control. (8) Does the Minister still accept the proposition in paragraph 129 of the Report that "in this Port Maitland study, we are dealing only with the effects of inorganic fluorides, and these only on a quantitative time basis, which may result in a demonstrable effect of chronic fluorosis. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

On what grounds was claim No. S 7805085, Mr. Nelson Davison, aged 56, of R.R. To what learned journals did the Board subscribe in the last complete year for which records are available. Please tabulate.

57. *Mr. Haggerty*—Enquiry of the Ministry—1. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area, as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."
58. *Mr. Peacock*—Enquiry of the Ministry—1. Will the land on which the units are sited be included in the description of the common elements.

What are the specific services required for the development of the Malvern Project—sewers, schools, etc.—to which the Ontario Government will contribute, what is the total cost of each service and what is the proportion to be assumed by the province.

56. *Mr. Haggerty*—Enquiry of the Ministry—1. Is Carcinoma of the Left Middle Turbinate classified as an industrial disease. 2. On what grounds was claim No. S 7805085, Mr. Nelson Davison, aged 56, of R.R. No. 1, Port Colborne, Ontario, an employee of the International Nickel Company, Port Colborne, disallowed by the Workmen's Compensation Board. 3. In what departments of the company did Mr. Nelson Davison work. 4. How were these departments shielded from airborne carcinogens. 5. What are the implications of this disqualification, touching on all employees, such as progress chasers, who move about industrial operations, and who sometimes work in the office and sometimes are in the plant. 6. How well informed is the Board on the incidence of new research in regard to possible employment hazards in industrial production. What liaison exists with the Department of Health in this regard. 7. To what learned journals did the Board subscribe in the last complete year for which records are available. Please tabulate.
57. *Mr. Haggerty*—Enquiry of the Ministry—1. With respect to workers being exposed to new materials that are proving to be carcinogens, what continuing steps is the Minister of Health taking to evaluate new materials in this regard, and to re-evaluate older, more traditional materials in the light of new knowledge as to their carcinogenic and other hazardous properties. 2. What continuing liaison exists between the Research Laboratory of the Department of Health and the Workmen's Compensation Board in this regard. How are the Members of the Workmen's Compensation Board kept abreast of new hazards that might be expected to confront them in compensation cases. Is there a bulletin or journal advising them of new developments in these areas. 3. Will the Minister comment in particular on a letter dated April 3, 1969, addressed to the Medical Officer, Claims Department, Workmen's Compensation Board, 90 Harbour Street, Toronto, Ontario, with copy to Dr. Mastro-matteo in the Department of Health; relating to the case of Mr. Nelson Davison, age 56, of Rural Route No. 1, Port Colborne, Ontario; Workmen's Compensation Claim Number S 7805085; Diagnosis Carcinoma of the Left Middle Turbinate; letter signed by Dr. R. G. C. MacLaren, FRCS, DMRT, The Ontario Cancer Foundation, Hamilton Clinic. 4. In particular will the Minister of Health comment on the following passages from the letter: "I know nothing of the details of the processes of refining nickel, but I do know that this type of tumour is unusual in the general population. This clinic sees patients from Hamilton, Burlington, Guelph, Galt, Brantford and the Niagara Peninsula, and between 1958 and 1967, we have records of nine cases in males. Their towns of origin are: Port Colborne, 6; Fort Erie, 1; Welland, 1; Wellandport, 1. I have no way of knowing that these nine cases all worked at the International Nickel Company, although some certainly did. We have other cases of women who are scattered on a more random basis, and I am surprised that we have no other cases of males from the rest of our area,

as we should have one or two cases from large cities like Hamilton. As this patient has worked at the International Nickel plant for many years and as the disease from which he suffers seems to be uncommon elsewhere, I think it would probably be advisable to review the decision regarding this claim."

58. *Mr. Peacock*—Enquiry of the Ministry—1. If not, why not. 2. What portion of the \$25,000,000 cost of construction of the first phase will be provided out of the 1969-70 advance to OHC. 3. What amount has been contributed by OHC to the recreational centre, and what is the total amount to be contributed. 4. Will the land on which the units are sited be included in the description of the common elements.
